An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Daniel Christus on December 23, 2004.

The application has been amended as follows:

Claim 1, line 1, -- crimp -- has been inserted before "ferrule"; line 2, -- adapted to be seated over a battery post and integral with the crimp ferrule -- has been inserted between "portion" and the semicolon.

Claim 8, line 1, -- crimp -- has been inserted before "ferrule"; line 2, -- and adapted to be seated over a battery post and integral with the crimp ferrule -- has been inserted between the second instance of "connector" and the semicolon; last line, -- and positioned on the flat base -- has been inserted before the period.

Claim 16, line 1, -- crimp -- has been inserted before "ferrule"; line 2, -- and adapted to be seated over a battery post and integral with the crimp ferrule -- has been inserted between the second instance of "connector" and the semicolon.

The following is an examiner's statement of reasons for allowance: none of the prior art of record discloses or teaches a battery terminal connector having a removable fuse positioned on the flat base between the ferrule and the body portion, in combination with the rest of the subject matter of the independent claims. The changes

Art Unit: 2833

to lines 1 and 2 of each independent claim have been made to more clearly define the invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gary F Paumen whose telephone number is 571-272-2013. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paula Bradley can be reached on 571-272-2800, ext. 33. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
